For more information please call 705-746-9522
or visit www.foreverychild.ca

NOTE: Programs are cancelled if school buses are cancelled.

EarlyON Child and Family Centre

West Satellites

Month: **January 2019**

How Does Learning Happen? Learning is organized around four foundational conditions that are important for children to grow and flourish: Belonging, Well-Being, Engagement, and Expression. These are a vision for **all** children's future potential and a view of what they should experience each and every day. They are aligned with the Kindergarten program.

**EARLYON Program times:
9:30-12:30pm**

Monday- Humphrey Community Centre

Tuesday- Foley Agricultural Hall

Wednesday Rosseau Memorial Hall

Thursday - Humphrey Community Centre & Nobel School

Friday - Orrville Community Centre

Here are some things you might see this

Belonging

- Making New Friends
- Looking at Documentation

Belonging refers to a sense of connectedness to others, an individual's experiences of being valued, of forming relationships with others and making contributions as part of a group, a community, the natural world.

Well-Being

- Serving ourselves
- Serving Ourselves Snack

Well-being addresses the importance of physical and mental health and wellness. It incorporates capacities such as self-care, sense of self, and self-regulation skills.

Engagement

- Singing Songs Together
- Circle time
- Exploring with Scales

Engagement suggests a state of being involved and focused. When children are able to explore the world around them with their natural curiosity and exuberance, they are fully engaged. Through this type of play and inquiry, they develop skills such as problem solving, creative thinking, and innovating, which are essential for learning and success in school and beyond.

Expression

- Reading Books
- Using the Word of the Month
- Exploring new circle songs

Expression or communication (to be heard, as well as to listen) may take many different forms. Through their bodies, words, and use of materials, children develop capacities for increasingly complex communication. Opportunities to explore materials support creativity, problem solving, and mathematical behaviours. Language-rich environments support growing communication skills, which are foundational for literacy.
