# EarlyON Child and Family Centre

## Land of Lakes-Burks Falls

Month: **November 2019**

How Does Learning Happen? Learning is organized around four foundational conditions that are important for children to grow and flourish: Belonging, Well-Being, Engagement, and Expression. These are a vision for **all** children's future potential and a view of what they should experience each and every day. They are aligned with the Kindergarten program.

## BURKS FALLS EARLYON Program times:

**Monday- 9:00-12:30 & 2:00-4:00**

**Tuesday- 9:00-12:30 & 3-5:30**

**Wednesday- 9:00-12:30**  
Moms to Moms 2:00-4:00

**Thursday- CLOSED**

**Friday- 9:00-12:30 & 2:00-4:00**

## Here are some things you might see this month!

### Belonging

- Connecting with others
- Working together to build
- Name and picture wall

**Belonging** refers to a sense of connectedness to others, an individual's experiences of being valued, of forming relationships with others and making contributions as part of a group, a community, the natural world.

### Well-Being

- Learning to follow routine
- All about how I feel
- When I am upset

**Well-being** addresses the importance of physical and mental health and wellness. It incorporates capacities such as self-care, sense of self, and self-regulation skills.

### Engagement

- Exploring shapes
- How does it work?
- Trying again

**Engagement** suggests a state of being involved and focused. When children are able to explore the world around them with their natural curiosity and exuberance, they are fully engaged. Through this type of play and inquiry, they develop skills such as problem solving, creative thinking, and innovating, which are essential for learning and success in school and beyond.

### Expression

- How I can communicate?
- What I am saying
- Exploring about creativity

**Expression** or communication (to be heard, as well as to listen) may take many different forms. Through their bodies, words, and use of materials, children develop capacities for increasingly complex communication. Opportunities to explore materials support creativity, problem solving, and mathematical behaviours. Language-rich environments support growing communication skills, which are foundational for literacy.
