EarlyON Child and Family Centre

South River

Month: March 2020

How Does Learning Happen? Learning is organized around four foundational conditions that are important for children to grow and flourish: Belonging, Well-Being, Engagement, and Expression. These are a vision for all children's future potential and a view of what they should experience each and every day. They are aligned with the Kindergarten program.

South River EARLYON Program times:

Monday- 9:00-12:30 & 2:00-4:00

Tuesday- CLOSED

Wednesday- 9:00-12:30 & 2:00-4:00

Thursday CLOSED mornings

Evenings 4:30-7:00 pm

Friday- 9:00-12:30 & 2:00-4:00

Here are some things you might see this

Belonging

- Identifying body parts
- Saint Patrick's Day (green day)
- Dr. Seuss's Birthday

Belonging refers to a sense of connectedness to others, an individual's experiences of being valued, of forming relationships with others and making contributions as part of a group, a community, the natural world.

Well-Being

- I am feeling.....
- Germs
- Lets get moving (hopping, jumping)

Well-being addresses the importance of physical and mental health and wellness. It incorporates capacities such as self-care, sense of self, and self-regulation skills.

Engagement

- How does this work?
- Sensory exploration
(Inspiring Little Minds)
- Science fun

Engagement suggests a state of being involved and focused. When children are able to explore the world around them with their natural curiosity and exuberance, they are fully engaged. Through this type of play and inquiry, they develop skills such as problem solving, creative thinking, and innovating, which are essential for learning and success in school and beyond.

Expression

- Story Baskets (Goodnight Moon)
- New songs
- What can I create using materials

Expression or communication (to be heard, as well as to listen) may take many different forms. Through their bodies, words, and use of materials, children develop capacities for increasingly complex communication. Opportunities to explore materials support creativity, problem solving, and mathematical behaviours. Language-rich environments support growing communication skills, which are foundational for literacy.
