or visit [www.foreverychild.ca](http://www.foreverychild.ca)

**NOTE:** Programs are cancelled if school buses are cancelled.

## EarlyON Child and Family Centre

## West Satellites

Month: **March 2020**

How Does Learning Happen? Learning is organized around four foundational conditions that are important for children to grow and flourish: Belonging, Well-Being, Engagement, and Expression. These are a vision for **all** children's future potential and a view of what they should experience each and every day. They are aligned with the Kindergarten program.

**EARLYON** Program times:  
**9:30-12:30pm**

**Monday-** Humphrey Community Centre

**Tuesday-** Foley Agricultural Hall

**Wednesday** Rosseau Memorial Hall

**Thursday** - Humphrey Community Centre  
& Nobel School

**Friday** - Orrville Community Centre

## Here are some things you might see this month!

### Belonging

Working together to build  
Singing together

**Belonging** refers to a sense of connectedness to others, an individual's experiences of being valued, of forming relationships with others and making contributions as part of a group, a community, the natural world.

### Well-Being

What's the weather today  
Music and Movement  
Hand hygiene

**Well-being** addresses the importance of physical and mental health and wellness. It incorporates capacities such as self-care, sense of self, and self-regulation skills.

### Engagement

Learning to take turns  
Learning to use scissors  
Learning new songs

**Engagement** suggests a state of being involved and focused. When children are able to explore the world around them with their natural curiosity and exuberance, they are fully engaged. Through this type of play and inquiry, they develop skills such as problem solving, creative thinking, and innovating, which are essential for learning and success in school and beyond.

### Expression

How animals move  
How I feel Today

**Expression** or communication (to be heard, as well as to listen) may take many different forms. Through their bodies, words, and use of materials, children develop capacities for increasingly complex communication. Opportunities to explore materials support creativity, problem solving, and mathematical behaviours. Language-rich environments support growing communication skills, which are foundational for literacy.
